

User Journey Map

Smart Tourism Platform — Sri Lanka

User Actions	Platform Touchpoints	Pain Points	Opportunities
--------------	----------------------	-------------	---------------

Stage 1 — Discovery

Emotion: *Curious & excited — researching a future trip*

User Actions	Platform Touchpoints	Pain Points	Opportunities
- Searches for Sri Lanka trips online - Browse blog posts and social media - Discovers the platform via search or referral	- SEO-optimized landing page - Destination highlights reel - Hidden gem showcases	- Information scattered across many websites - No single trusted source for Sri Lanka travel	- Be the one-stop content hub for Sri Lanka - Curated feed of famous and hidden destinations

Stage 2 — Exploration

Emotion: *Overwhelmed but hopeful — comparing many options*

User Actions	Platform Touchpoints	Pain Points	Opportunities
- Browse interactive destinations map - Filters by interest, region, and budget - Reads destination guides - Views, photos and reviews of hotels and guides	- Interactive Sri Lanka map - Smart filter (region, type, budget) - Destination detail pages - Hotel and guide profile previews	- Too many choices with no clear guidance - Difficult to judge quality without reviews	- AI trip-match quiz to surface personalized picks - Verified review system for guides and hotels

Stage 3 — Planning & Booking

Emotion: *Focused & decisive — committing to the trip*

User Actions	Platform Touchpoints	Pain Points	Opportunities
- Books hotel(s) from the platform - Arranges transport between destinations - Hires a certified tourist guide - Build a day-by-day itinerary - Makes payment and gets confirmation	- Hotel booking engine - Transport scheduler - Guide Profile and booking system - Itinerary builder tool - Secure payment gateway + instant confirmation	- Juggling separate apps for hotel, transport, guide - No bundled pricing across services	- Unified checkout — book all in one flow - Bundled package pricing and itinerary PDF download

Stage 4 — Pre-Trip Preparation

Emotion: *Anticipatory & slightly anxious — double-checking everything*

User Actions	Platform Touchpoints	Pain Points	Opportunities
- Reviews booking summary and itinerary - Reads packing and travel tips - Contacts guide or hotel via messaging - Checks weather and local advisories	- Booking dashboard with full summary - Packing guides and travel tips library - In-app messaging with providers - Push notification reminders	- Hard to reach providers for last-minute questions - Information updates not pushed to the user	- Live chat support and push reminder notifications - Dynamic itinerary updates with provider alerts

Stage 5 — During the Trip

Emotion: *Thrilled & immersed — living the experience*

User Actions	Platform Touchpoints	Pain Points	Opportunities
- Uses offline-cached itinerary on mobile - Checks in and communicates with guide - Discovers hidden gems via location tips - Modifies plans on-the-go via the app	- Offline-capable mobile app - Real-time guide communications - Location-based tips and alerts - Rebooking and add-on service options	- Poor mobile connectivity in remote areas - Unexpected changes with no easy re-booking	- Full offline mode — maps, guides, and itinerary cached - One-tap rebooking for cancelled or changed services

Stage 6 — Post-Trip & Advocacy

Emotion: *Nostalgic & satisfied — reflecting and sharing the experience*

User Actions	Platform Touchpoints	Pain Points	Opportunities
- Rate hotels and guides in-app - Write reviews to help future travelers - Share trip highlights on social media - Returns to plan next trip or refers friends	- In-app review and rating prompts - Trip memory and photo feed - Referral reward programmer - Loyalty points and return-trip deals	- No incentive to return to the platform after the trip - Reviews not prominently surfaced with new users	- Points system and early-bird deals to drive re-booking - User-generated content feeds to attract new travelers

Emotional Journey Arc

Discovery	Curious & excited — researching a future trip
Exploration	Overwhelmed but hopeful — comparing many options
Booking	Focused & decisive — committing to the trip

Pre-trip	Anticipatory & slightly anxious — double-checking everything
During trip	Thrilled & immersed — living the experience
Post-trip	Nostalgic & satisfied — reflecting and sharing the experience

Key Moments of Truth	
1	First platform impression — does it feel like a trustworthy single source for Sri Lanka travel?
2	Booking ease — can the user complete hotel + transport + guide in one unbroken checkout flow?
3	In-destination reliability — does the app work offline in Ella, Yala, and Hill Country?
4	Post-trip loop — does the platform earn a return visit or referral through rewards and memories?
