

User Persona Report

Tourism Platform

1. Introduction

1.1 Purpose

The purpose of this document is to create user personas for the tourism platform to better understand the needs, behaviors, goals, and frustrations of different traveler types. These personas support user-centered UI/UX design decisions during the development process.

1.2 Objective

This report helps the UI/UX design team create a tourism platform that aligns with the expectations of real users by identifying traveler demographics, pain points, and behavioral patterns.

2. Target User Groups

The following traveler groups were identified for the tourism platform:

- Budget Travelers / Students
- Family Vacation Travelers
- International Tourists

3. User Personas

3.1 Persona 1 – Budget Student Traveler

Personal Information

Name	Nimal Perera
Age	22 Years
Occupation	University Student
Location	Colombo, Sri Lanka
Income Level	Low / Budget-conscious
Travel Frequency	2–3 trips per year

Behavioral Details

- Frequently searches for low-cost travel packages.
- Uses mobile applications for bookings.
- Relies heavily on reviews and ratings.
- Travels mostly with friends.

Goals

- Find affordable travel destinations
- Compare hotel and transport prices
- Easily book accommodations online
- Discover popular travel locations

Frustrations / Pain Points

- Hidden booking fees
- Poor mobile user experience
- Difficult booking process
- Limited budget recommendations

Platform Needs

- Budget filters
- Travel discounts
- Mobile-friendly interface
- Transparent pricing

Alignment with Platform Objectives

This persona supports the tourism platform goal of providing affordable and accessible travel planning.

3.2 Persona 2 – Family Vacation Planner

Personal Information

Name	Jasodha Sivakumar
Age	38 Years
Occupation	School Teacher
Location	Kandy, Sri Lanka

Income Level	Middle-income
Travel Frequency	1–2 vacations per year

Behavioral Details

- Plans vacations in advance.
- Travels with spouse and children.
- Prioritizes safety and comfort.
- Searches for family-friendly activities.

Goals

- Find safe tourist destinations
- Book family-friendly hotels
- Access travel itineraries
- Save planning time

Frustrations / Pain Points

- Too many irrelevant suggestions
- Poor filtering for families
- Lack of child-friendly recommendations
- Difficult navigation

Platform Needs

- Family filters
- Safe accommodation recommendations
- Family activity suggestions
- Easy itinerary planning

Alignment with Platform Objectives

This persona supports the tourism platform objective of providing a safe and convenient travel experience for families.

3.3 Persona 3 – International Tourist

Personal Information

Name	Mathew Whilson
Age	30 Years
Occupation	Software Engineer
Location	United Kingdom
Income Level	High
Travel Frequency	4–5 trips annually

Behavioral Details

- Prefers premium travel experiences.
- Uses digital platforms for entire trip planning.
- Interested in local culture and attractions.

Goals

- Explore local culture
- Book all travel services in one platform
- Access multilingual support
- Receive trusted travel recommendations

Frustrations / Pain Points

- Poor international payment options
- Lack of local travel guidance
- Limited travel information

Platform Needs

- Multi-language support
- International payment gateways
- Local attraction recommendations
- Personalized travel suggestions
